

It was on May 1, 2019. I had collapsed for 7 minutes. I was gone.

Whitney, off duty ambulance staff, was just around the corner at the tire shop.

The ambulance was also right there, quick enough to save me, I know that.

They worked together. I was defibrillated. I received early advanced life support care. Whitney stayed with me the whole time. He was great.

They flew me out on an air ambulance, but our local ambulance stabilized me. I am alive and fully recovered because they were there, and they were all great.

I hope you all will vote to keep this ambulance service alive. We need it.

Carl Adams, Hayfork
